

## **SnowPure, LLC Policy Regarding FDA Compliance of Materials in Electropure™ EDI Modules**

SnowPure, LLC manufactures Electropure™ electrodeionization modules which are suitable for use in a variety of applications. All of the wetted materials within the modules have been identified by the United States FDA in Title 21 of the Code of Federal Regulations (CFR 21) as safe to use in contact with food.

None of the materials used in Electropure™ modules are of animal origin.

SnowPure maintains files from its suppliers as to their CFR 21 compliance. SnowPure does no independent testing of component materials and solely relies on its suppliers to be in compliance with FDA requirements.

If necessary for validation, SnowPure can provide to its customers, under a non-disclosure agreement, a list of the wetted materials in its modules and their specific CFR 21 compliance letters.

## **List of Wetted Materials**

*This applies to the following Electropure™ EDI Models: XL-060-RL, XL-100-R, XL-100-SR, XL-100-HTS, XL-200-R, XL-200-SR, XL-200-HTS, XL-300-R, XL-300-SR, XL-300-HTS, XL400-R, XL-400-SR, XL-400-HTS, XL-500-R, XL-500-SR, XL-500-HTS, EXL-600, EXL-700, Zapwater™ Zap-10, Zap-20.*

Water on the product side of Electropure™ electrodeionization products (XL product line) contacts the following materials. All are certified by our vendors to be compliant with US CFR 21.

1. Polysulfone (PS)
2. Polypropylene (PP)
3. Polyphenylene Oxide(PPO)/Polystyrene (GE Noryl®)
4. Acetal (Acetron®)
5. Anion Exchange Resin, Strong Base Type I
6. Cation Exchange Resin, Strong Acid
